EXPERIENCE

Senior Software Engineer

May 2024 – Present

InfoEdge (India) Limited - iimjobs.com

Delhi-NCR, India

- Constructed a **cross-repository knowledge graph** using **Graphify** for microservice flow analysis, reducing debugging effort for **20+ engineers by 30%** and slashing **LLM token usage by 70x** via optimized **graph-based code retrieval**.
- Created a **MySQL MCP (Model Context Protocol) server** powering AI-assisted developer tools, boosting query accessibility for a team of 20+ engineers and **accelerating workflow efficiency by 20%**.
- Led **migration of the PHP codebase to Node.js/Next.js**, improving application loading speed by 35% and enhancing the experience for **10,000+ daily active users**.
- Drove **frontend performance optimization** for high-traffic pages, **improving Core Web Vitals** (LCP, CLS, INP), **cutting load time by 30%**, **reducing JS bundle size by 20%**, and **improving interaction latency by 25%** using code-splitting, lazy loading, asset optimization, and runtime profiling.
- Engineered a **high-performance server-side rendering (SSR) solution** using Next.js, optimizing hirst.tech job pages and **reducing load times by 30%**, resulting in a **25% increase in organic traffic**.

Software Engineer

June 2022 – May 2024

InfoEdge (India) Limited - iimjobs.com

Delhi-NCR, India

- Authored and maintained **technical documentation** for 10+ core services and APIs, and introduced **Test-Driven Development (TDD)** practices within the team, reducing onboarding time by 30% while improving engineering standards and cross-team collaboration.
- Addressed and resolved **critical security vulnerabilities** (XML injection, SQL injection, cross-site scripting) across 5+ services, ensuring compliance with industry standards, and enhancing application security.
- Redesigned the **"Learn & Grow"** section using Node.js, React, and PHP.

PROJECTS & OPEN SOURCE CONTRIBUTIONS

Graphify | *The on-device knowledge graph engine for codebases*

May 2026

- Implemented **parallel AST extraction** using **Python ProcessPoolExecutor**, achieving **3-5x faster parsing** on benchmarked repositories and improving scalability for large codebases.
- Enhanced Graphify graph exploration UX by implementing **checkbox-based multi-select community filtering** and improving **interactive visualization controls**.

Next.js | *The React Framework*

January 2026

- Maintained the accuracy of the official **Next.js documentation** by updating the **Partytown integration guide**, correcting outdated installation references to prevent developer friction during **third-party script setup**.

Newsflash | *GNOME RSS Reader*

October 2025

- Enhanced Newsflash by adding **dynamic keyboard shortcut tooltips** with **real-time keybinding updates** using **GTK signal handling**, improving shortcut discoverability and onboarding experience.

VPN Manager | *Multi-VPN Automation Script*

March 2024

- Automated VPN management with OpenVPN3 and Bash**, enabling secure, seamless network access for over 20 engineers, cutting VPN switch time by 70%.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, PHP

Frontend: React.js, Next.js, HTML, CSS

Backend: Node.js, LoopBack, FastAPI, Flask, Django

Testing: Jest, Playwright, Cypress

AI & Data: LLMs, RAG, LangChain, Vector Databases, MCP

Databases: MySQL, PostgreSQL, Redis, MongoDB

DevOps/Tools: Git, GitHub, Linux, Bash, AWS, RabbitMQ, Nginx

EDUCATION

Birsa Institute of Technology, Sindri

B.Tech. Information Technology | CGPA: 8.36

August 2018 – May 2022

Dhanbad, India
