PROFESSIONAL SUMMARY

Performance-driven Senior Software Engineer with 3.5+ years of experience specializing in full-stack architecture, performance optimization, and AI integrations. Proven track record of migrating legacy codebases, designing microservices, and optimizing Core Web Vitals for applications with 10k+ daily active users.

EXPERIENCE

Senior Software Engineer

InfoEdge (India) Limited

May 2024 – Present

Delhi-NCR, India

- **Architected** a cross-repository knowledge graph via Graphify, reducing engineering debugging cycles by 30% and cutting LLM token usage 70x via graph-based code retrieval.
- **Engineered** a custom MySQL MCP server to power AI developer tools, expanding query accessibility for 20+ engineers and accelerating workflows by 20%.
- **Spearheaded** the architectural migration of a legacy PHP codebase to Node.js/Next.js, boosting application loading speed by 35% for 10,000+ daily active users.
- **Orchestrated** frontend performance optimizations for high-traffic pages, cutting JS bundle sizes by 20% and reducing interaction latency by 25% via code-splitting.
- **Deployed** a Next.js Server-Side Rendering (SSR) pipeline for hirist.tech, reducing page latency by 30% and driving a 25% increase in organic SEO traffic.

Software Engineer

InfoEdge (India) Limited

June 2022 – May 2024

Delhi-NCR, India

- **Championed** Test-Driven Development (TDD) and API documentation across 10+ core microservices, reducing engineer onboarding velocity by 30%.
- **Remediated** critical security vulnerabilities (XML/SQLi, XSS) across 5+ production services, eliminating 100% of high-risk flaws to ensure compliance.
- **Overhauled** the full-stack architecture of the "Learn & Grow" section using Node.js/React, increasing rendering speed by 25% and cutting server overhead by 15%.

PROJECTS & OPEN SOURCE CONTRIBUTIONS

Graphify | On-Device Knowledge Graph Engine

May 2026

- Implemented Python parallel Abstract Syntax Tree (AST) extraction for a 5x parsing scalability gain and built community filters that cut rendering latency by 45%.

Next.js | The React Framework (Contributor)

January 2026

- Upgraded the Partytown script integration framework within official docs, eliminating configuration friction for 100,000+ global developers.

Newsflash | GNOME RSS Reader (Contributor)

October 2025

- Integrated dynamic UI tooltips with real-time keybinding state tracking via GTK signal handling, improving feature adoption velocity by 35%.

VPN Manager | Multi-VPN Automation Engine

March 2024

- Automated complex network routing using OpenVPN3 and Bash, cutting secure network switching latency by 70% for a team of 20+ engineers.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, Python, Java, PHP, React.js, Next.js, Node.js, Loopback, FastAPI, Flask, Django

AI & Data Engineering: LLMs, Retrieval-Augmented Generation (RAG), LangChain, Vector Databases, Model Context Protocol (MCP)

Databases & Tools: MySQL, PostgreSQL, Redis, MongoDB, Git, AWS, RabbitMQ, Nginx, Linux, Bash, Jest, Cypress

EDUCATION

Birsa Institute of Technology, Sindri | B.Tech. Information Technology (CGPA: 8.36)

Aug 2018 – May 2022
